

Project Design Phase-I Solution Architecture

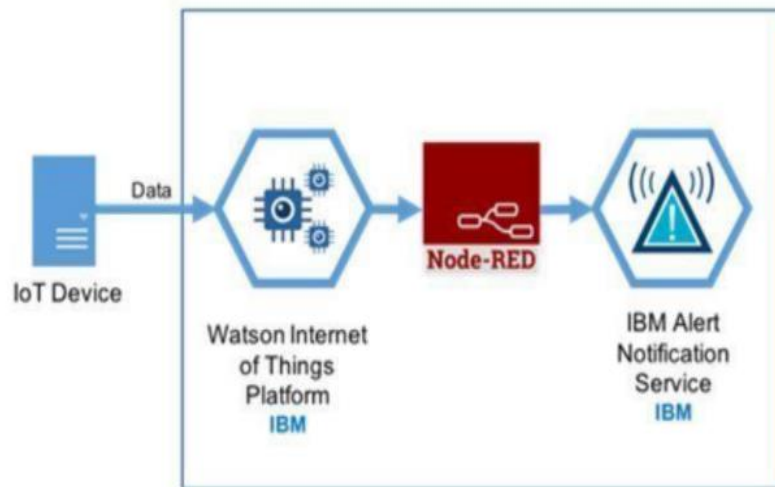

Date	07 OCTOBER 2022
Team ID	PNT2022TMID31252
Project Name	IOT based Child safety and monitoring system &notification
Maximum Marks	4 Marks

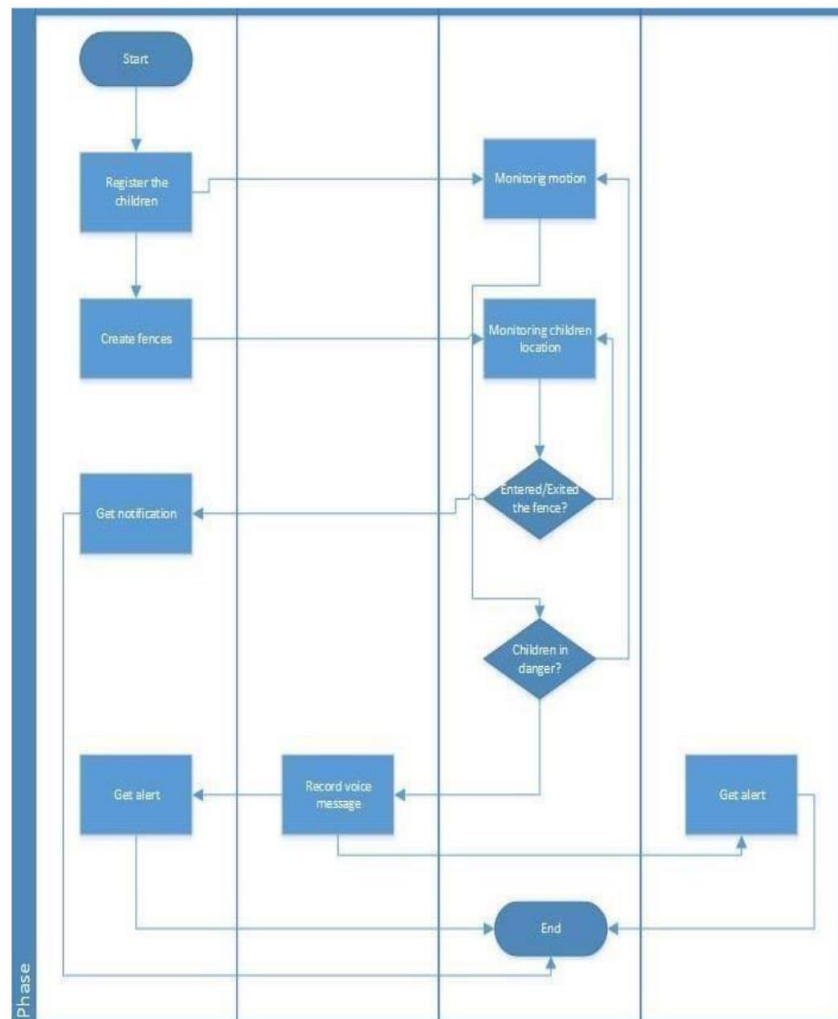

SOLUTION ARCHITECTURE:

- Solution architecture is a complex process - with many sub-processes - that bridges the gap between business problems and technology solutions.
- Its goals are to: Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements.
- Provide specifications according to which the solution is defined, managed, and delivered.
